Fellowship
Examinations

Orthodontics Post CCST qualification note following the implementation of the new Dental Specialty curricula being implemented in September 2024.

The General Dental Council (GDC) has published [newly revised curricula](#) for dental specialties, which will be introduced for trainees beginning their specialty training from October 2024.

The Royal College of Surgeons of Edinburgh, the Royal College of Surgeons of England and the Royal College of Physicians and Surgeons of Glasgow are now working together to introduce an intercollegiate approach to assessment at Fellowship level.

Following the introduction of the new assessment for Fellowship, consideration will be given to the curriculum and assessment for an Advanced Fellowship for Orthodontics to cover the ST4 5 curriculum. The first assessments will be due to take place in March 2028.

Development of the ST4 5 curriculum will be conducted by the Special Advisory Committee (SAC) in Orthodontics and the assessment approach will be agreed by the colleges on the basis of this curriculum.

For further information, please see the website or contact the relevant Training Programme Director.
