

Dental Specialty Fellowship Examinations – Part 1 Exam Specification

Specialty	Prosthodontics
------------------	-----------------------

The examination will have 180 Single Best Answer (SBA) questions, split equally across two two-hour papers of 90 questions each. On average, candidates will therefore have 1.5 minutes (90 seconds) to read and complete each question.

The questions are spread across the syllabus and will be divided into topics as follows. The question order will be randomised for each candidate. The weighting range indicates the number of potential questions for each topic. For example, a weighting range of 8-12 indicates that you will be asked between 8 and 12 questions on that topic in an examination diet.

	Topic	Weighting range
1.	Examination and Diagnosis	18 – 24
2.	Clinical Investigation and Imaging	10 – 20
3.	Development of Prosthodontic Treatment Strategies	18 – 24
4.	Health Promotion and Prevention of Disease	5 – 15
5.	Fixed Prosthodontics	18 – 24
6.	Removable Prosthodontics	15 – 25
7.	Implant Prosthodontics	15 – 25
8.	Temporomandibular Disorders	5 – 10
9.	Erosive Tooth Wear	10 – 16
10.	Aesthetic Dentistry	10 – 15
11.	Materials Science	5 – 10
12.	Dental Traumatology	5 – 7
13.	Digital Dentistry	5 – 10
